PROFILE

Full Stack Developer with a strong understanding of web and user interface design, having been involved in various website developments. Adept at collaborative work environments and improving user experience with a passion for performance optimization, secure coding practices, and development of scalable web solutions that prioritize speed and security.

PROFESSIONAL EXPERIENCE

Principal Software Developer

Mar 2024 – present | London, UK

PointlessAI

- Designed, developed, and maintained full-stack web applications using modern frameworks such as React, Node, Express, and MongoDB.
- Implemented performance optimization techniques, enhancing application speed and responsiveness.
- Secured applications through authentication and authorization mechanisms, mitigating risks like SQL injection and cross-site scripting (XSS).

Full Stack Developer

Apr 2023 – Oct 2023 | London, UK

OPNX

- Led development efforts for full-stack solutions, contributing to both front-end and back-end components.
- Collaborated with cross-functional teams to ensure seamless project execution and client satisfaction.

Front End Developer

Mar 2021 – Apr 2023 | London, UK

Coinflex

- Worked closely with marketing and UX teams to integrate design mockups, delivering visually appealing, responsive interfaces across devices.
- Integrated RESTful APIs, ensuring smooth data flow between the server and client-side applications.
- Implemented and maintained scalable and modular front-end architecture, optimizing load times and improving overall website performance.

Senior WordPress Developer

Jul 2016 – Feb 2021 | London, UK

Amarria

- Led the development of dynamic Content Management Systems (CMS) for major clients, increasing content update efficiency.
- Customized WordPress themes in alignment with design specifications and user needs.
- Optimized websites for SEO, usability, and performance.

Web Developer

Aug 2015 – Jul 2016 | Cambridge, UK

Scrapspost Cambridge Website Design

- Developed responsive, visually appealing client websites, ensuring consistent user experience across browsers and devices.
- Increased mobile traffic by 23% with the implementation of a responsive, fluid design approach.
- Conducted cross-browser testing to ensure compatibility and performance.

EDUCATION

BSc (Hons) Computer Science

Dec 2012 – Feb 2016 | Cambridge, UK

Anglia Ruskin University

SKILLS

HTML, CSS, JavaScript, React, Express, MongoDB, Node, Next.js, TypeScript, MySQL, WordPress, Git, AWS
